

Eastern Crown (Hybrid)

Broccoli Broccoli

Eastern Crown is an outstanding variety for the East Coast. Some highlights of this variety include small beads, blue-green head color and excellent heat tolerance. Eastern Crown is perfect for the crown cut/short trim (Asian cut) market.

- Performs well in long day length and moderate heat
- For crown cut and short trim (Asian cut)

GENERAL

Days to Maturity from Direct Seed: 94

- Small

Exterior Color

- Blue Green

Head Characteristics

- Domed

Market Use

- Crown
- Short Trim

Plant Height

- Compact

DISCLAIMER

Claims and other disclosed information are based on our observations and/or information from other sources. Crop performance depends on the interaction between the genetic potential of the seed, its physiological characteristics, the environment, including management, and other uncontrollable factors that may alter expected performance.

Statements on the reaction of varieties to a specific pathogen, pest or stress are based on evaluation under defined conditions. These reactions can be affected by changes in environmental and biological factors, especially new pathogen races, pest biotypes or vectors of disease agents. Therefore, we give no warranty, express or implied, for crop performance relative to the information given; nor do we accept any liability for any loss, direct or consequential, that may arise from any cause. Read all seed package labeling.
